THE LOCAL RACING GUIDE FOR HOLLYWOOD CASINO AT CHARLES TOWN RACES FOLLOWS THIS RACING GUIDE

INTRODUCTION

The reputation and integrity of Penn National Gaming, Inc. ("PNGI") and each subsidiary racetrack including Hollywood Casino at Charles Town Races (collectively, "the Racetrack") are valuable assets that are vital to PNGI's success and the success of its racetracks. As members of the pari-mutuel wagering and gaming communities, it is necessary for all of us to adhere to the highest standards of integrity, to ensure positive public perception and confidence and maintain the licenses and regulatory privileges of PNGI and all of its Racetracks. As a result, the Racetrack requires all personnel associated with the Racetrack and all persons who hold valid and current racing licenses associated with the Racetrack, or are otherwise permitted on Racetrack's privately owned property, including, but not limited to, owners, racing officials, stewards, trainers, trainer's agents, grooms, veterinarians, vendors, pony people, outriders, independent contractors, jockeys, jockeys' agents, drivers, minors, guests, agents, and anyone else with a racing license or permit (herein collectively referred to as "Racing Participant"), to comply with all rules and regulations as well as the highest standard of professional and ethical conduct. A failure to abide by the rules and policies set forth in the Guide may result in the denial of privileges to enter the Hollywood Casino at Charles Town Races' grounds, or a revocation of access to the grounds.

This Racing Guide ("Guide") covers a wide range of practices and procedures designed to foster integrity and honesty among all participants at the Racetrack. It does not cover every issue that may arise, but rather it sets out basic principles for all the individuals covered by this Guide. In order to maintain privileges to enter and conduct business on our Racetrack grounds, all Racing Participants must be familiar with and comply with all policies contained in the Guide as well as all other applicable laws and regulations. In the normal course of our business, the Racetrack will require individuals to complete and sign various forms, and provide other information as required or requested, prior to being granted access or in continuing with racing privileges at the Racetrack or at any other PNGI property.

No guide or code of conduct can replace the thoughtful behavior of someone conducting their business with a high level of integrity. Therefore, dishonest or illegal conduct will constitute a violation of this Guide, regardless of whether the conduct is specifically addressed in the Guide.

While we expect to periodically give notice relative to updates to the Guide and other matters, because of the fast paced and highly regulated nature of our business, the Racetrack reserves the right to alter or amend any and all of its rules and regulations, without notice, at any time, and from time to time, at its sole discretion. It is incumbent upon the Racing Participant to be aware of any changes, updates or modifications to this Guide.

PART 1 – GENERAL

1.1 PERSONAL CONDUCT

All persons covered by the Guide are required to avoid conduct detrimental to the integrity of, and public confidence in, pari-mutuel wagering and gaming. Only those persons who have signed the documents required by the Racetrack shall be allowed on the Racetrack's property.

Guidelines promoting ethical and responsible conduct serve the interests of the Racetrack, participants in the sport and the racing industry as a whole. Illegal or irresponsible conduct does more than simply tarnish the offender. It puts innocent people at risk, damages the reputation of others involved in the business, and it undermines public respect and support for the racing industry.

1.2 STANDARDS OF CONDUCT

While criminal activity is clearly outside the scope of permissible conduct, and persons who engage in criminal activity will be subject to the appropriate actions (legal and otherwise), the standards of conduct for persons permitted to conduct business at the Racetrack are considerably higher. It is not enough to simply avoid being found guilty of a crime. Instead, persons must conduct themselves in a way that is responsible, promotes the high degree of integrity our industry relies on, and is lawful. All persons permitted to conduct business on Racetrack property and to use the grounds must abide by the lawful direction of all Racetrack personnel at all times.

Persons who fail to live up to this standard of conduct are subject to action by the Racetrack. For example, action by the Racetrack may be based on circumstances that include, but are not limited to the conduct described below:

A. Dishonest, Offensive or Illegal Conduct

The following activities are prohibited:

- Criminal offenses of any kind;
- Violent or threatening behavior, whether in or outside Racetrack property;
- Conduct that creates a negative public perception of PNGI, the Racetrack or undermines or puts at risk the integrity and reputation of pari-mutuel wagering and gaming in general;
- Violation of Racetrack safety policies or rules; and
- Misrepresentations in any applications/forms and/or in any disclosures as requested or required by the Racetrack.

B. Medications and Related Issues

The presence of medication(s) in animals in excess of amounts as stated in the applicable rules and regulations of each recognized jurisdiction is prohibited.

In the event a trainer or trainer's agent receives notification of a positive test for excessive medication(s), or a violation of the medication rules in any jurisdiction, the trainer must notify the respective Racetrack Vice President of Racing or Director of Racing as soon as possible. The information to be provided shall include, but not be limited to:

- Date and racetrack location where such violation occurred;

- Name of the animal for which the medication violation occurred;
- Name of medication(s);
- Veterinarian(s) which prescribed and/or administered such medications; and
- Penalty, if any, assessed by the applicable regulatory body, for such medication violation;

Failure to provide timely notification to the proper individuals, as detailed above, shall be considered a violation of this Guide. In either event, Racetrack may impose sanctions against trainer, trainer's agents, owner and/or animal in the event of a single violation or repeated violations.

C. Racing Issues

Any person involved in entering or scratching horses that Racetrack reasonably believes has not exercised good faith will be in violation of the Guide. Examples of this conduct include, but are not limited to:

- Entering a race without the intention of racing;
- Entering a horse into a race or causing a horse to be entered into a race for the benefit of another;
- Frequent scratching of horses entered to race; and
- Acting as a programmed trainer or as an agent/representative for an individual not permitted on Racetrack's property or not properly licensed by the appropriate regulatory body.

Transfer of trainer is permitted only with prior approval of the Racetrack and jurisdictional regulatory body, if required.

D. Illegal Drugs/Alcohol

The use, distribution or possession of illegal drugs is not permitted at any time on grounds of the Racetrack. For the purposes of this rule, an illegal drug is any drug which is not legally obtainable, or one which is legally obtainable but has not been legally obtained, including prescription drugs not legally obtained and prescription drugs that were prescribed for someone else. Alcohol is not permitted within any Racetrack backstretch area, or in any barns or dormitories located on Racetrack property.

E. No Solicitation Policy

There is a no solicitation policy at the Racetrack, which includes, but is not limited to, circulation of petitions, political flyers, or distribution of literature not approved in advance in writing by the Racetrack. Signs identifying stables and trainers and vendors must be approved and in writing by the Racing Secretary's Office or appropriate Racing or Racetrack Grounds Manager.

F. Animal Welfare

Any person covered by this Guide who handles or treats any animal, including any horse or dog, without regard for the well being of the animal or causes physical injury or pain or suffering to the animal, including excessive or unnecessary training or whipping, in the sole discretion of Racetrack, will be subject to penalties up to and including their loss of racing privileges at all PNGI racetracks. In addition, any horseman stabled at the Racetrack who knowingly, or without conducting proper due diligence, sells a horse for slaughter, directly or indirectly, will have his or her stalls revoked and may, in addition, be barred from all of PNGI's racetracks.

G. Treatment of Racetrack Staff/Non-Disparagement

All persons covered by the Guide are required to afford the Racetrack's staff the highest level of professional courtesy and treatment. Racing Participants agree to fully cooperate with the necessary provision of information and any investigation by Racetrack staff. Any verbal or physical mistreatment of, or inappropriate conduct toward, the Racetrack's staff will be viewed as a strict violation of the Standards of Conduct contained in the Guide.

It shall be a violation of Racetrack's standards of conduct for any person covered by the Guide to disparage PNGI or the Racetrack, or any of their affiliates, employees, staff or personnel, in any manner by any type of medium. This includes, but is not limited to, disparagement by use of the internet, e-mail, and via any social media such as blogs, Facebook, etc.

H. Past Conduct and/or Sanctions

Past conduct and/or sanctions having occurred at other PNGI Racetracks, in other jurisdictions or at other facilities may be considered when evaluating the fitness of an individual covered by the Guide to conduct business on the Racetrack's property. Such evaluations and decisions will be at the sole discretion of Racetrack.

1.3 MANDATORY REPORTING GUIDELINE

It is the responsibility of all persons covered by the Guide to comply with all practices contained in this Guide and in addition, all covered individuals are expected to report any violations or suspected violations. All reported violations or suspected violations must be made in writing and reported in a timely manner to the Vice President of Racing or Director of Racing at the Racetrack.

Failure to report a violation, or suspected violation, may itself constitute a violation of this Guide. In addition, there can be no retaliation of any kind against any person for reporting a suspected violation. Any person who feels that they have been retaliated against shall report it as set forth above. Any person who retaliates against someone who has reported a suspected violation in good faith is subject to actions against their Racetrack privileges as described in this Guide.

1.4 ACTING IN GOOD FAITH

Anyone filing a report or complaint concerning a violation or suspected violation of the Guide must be acting in good faith and have reasonable grounds for believing the information disclosed indicates a violation. Any allegations that prove not to be substantiated and which prove to have been made maliciously or knowingly to be false will be viewed as a serious offense and in violation of the principles contained in this Guide.

1.5 RACETRACK AS SOLE ARBITER

Racetrack is the sole and ultimate arbiter in interpreting and enforcing provisions of this Guide and the Local Racing Guide.

1.6 FIRE SAFETY

All Racing Personnel shall familiarize themselves with the location of fire alarms, fire prevention signs and all firefighting equipment.

No person shall move, interfere with, damage or hinder the use of smoke detectors, heat detectors or other fire suppression equipment or signage.

1.7 INSURANCE

Any trainer on behalf of themselves, and their agents and employees, shall at all times maintain comprehensive general liability insurance in the minimum amount of $1 million per occurrence (except as permitted in the Local Racing Guide) which is intended to reimburse Racetrack, and its directors, officers, employees and agents from any and all liability arising from their actions. The trainer shall, upon request by Racetrack, provide a certificate of insurance and any other documentation Racetrack may reasonably request evidencing that the foregoing insurance is in effect.

The trainer shall provide Racetrack with thirty (30) calendar days notice of cancellation or non-renewal of their comprehensive general liability coverage.

All persons holding a racing license or permit as a trainer must have workmen's compensation insurance as required by the Racetrack. The trainer shall, upon request by Racetrack, provide a workmen's compensation certificate and any other documentation Racetrack may reasonably request evidencing that the foregoing insurance is in effect.

Any vehicle operated on the Racetrack grounds or in the Racetrack stable area must be properly registered with Racetrack and proof of proper insurance will be required upon request. No person shall operate any vehicle without a valid driver's license.

Racetrack reserves the right to require Racing Participants to show proof of appropriate insurance coverage as it deems necessary.

1.8 SURVEILLANCE/RETENTION

Our business is highly regulated and requires significant oversight including security related measures. As a result, we employ extensive surveillance on our property. All individuals entering the grounds at any Racetrack property consent to all surveillance and/or retention measures employed by the Racetrack on its grounds.

The Racetrack may require horses to be placed in a pre-race surveillance program prior to the post of the race in which they are entered. Notice of horses selected for surveillance will be given at a time to be determined by Racetrack. The period of time and location that a horse is kept under surveillance is at the sole discretion of the Racetrack.

Once a trainer or owner is notified that a horse has been selected for surveillance, he/she will cooperate with Racetrack security in documenting particulars of the affected horse(s), including name, tattoo, program number, barn and stall designation.

Access to horses in the surveillance program will be restricted to pre-approved individuals and this access will be monitored and documented by Racetrack security. The trainer of the affected horse is responsible for designation of those individuals who will be allowed access to the horse for feeding and race preparation purposes under the direction of Racetrack Security personnel. The trainer and his/her veterinarian will ensure that any pre-race treatments and/or medications administered to the affected horse are documented and made available to Racetrack security upon request.

Responsibility for each horse in the pre-race surveillance program will remain solely with the horse's trainer. In no event will Racetrack assume responsibility or liability for such horse.

1.9 ASSUMPTION OF RISKS

All persons covered by this Guide acknowledge that horses, horse riding and racing, horse training and practicing, caring for horses and all other equestrian related activities can be extremely dangerous and routinely involve risk of serious injury, death and/or property damage. By participating in our industry and choosing to enter the Racetrack premises voluntarily, Racing Participant has and does hereby assume all of the above risks, and releases Racetrack, on their behalf and on behalf of all their family members, and will hold Racetrack harmless from any and all liability, actions, causes of actions, debts, claims and demands of every kind and nature whatsoever which he or she now has or which may arise out of or in connection with his/her participation in those activities and risks.

PART 2 – RESULT OF GUIDE VIOLATIONS

2.1 RESULT OF GUIDE VIOLATIONS

A violation of any of the rules and policies set forth in the Guide and/or Local Guide may lead to the imposition of sanctions against Racing Participants, including but not limited to:

(i) suspension of, or loss of privileges, including loss of stabling and/or racing privileges at Racetrack and at all PNGI Racetracks;

(ii) loss of any or all nomination, declaration and entry fees as well as any deposits on account with Racetrack;

(iii) eviction from any or all PNGI Racetrack premises; and/or

(iv) any other remedy available by law.

Subject to Section 2.2 below, the sanctions as set forth by Racetrack for any violation of the rules and policies are final.

2.2 OPPORTUNITY FOR RECONSIDERATION

In cases where Racetrack has indefinitely ejected a Racing Participant from the property, the person subject to such action may seek review of the decision by written request directed to the Vice President of Racing or the Director of Racing at Racetrack which originally issued the ejection and setting forth, in detail, the grounds for the request for reconsideration. Any review shall not be considered until a minimum of one (1) year has elapsed since the last review of such ejection. Racetrack is under no obligation to grant a review or reconsider a prior ejection.

17.3 Horses not entitled to the first weight allowance in a race shall not be entitled to any subsequent allowances.

17.4 Horses not incurring the first weight penalty in a race shall not be forced to incur any subsequent penalties.

17.5 Horses entered in long races at a mile or more will be eligible for an additional three (3) pound weight allowance if that horse has not won any race in their lifetime at a mile or more. This weight allowance is not automatic, must be claimed at the time of entry and cannot be claimed in maiden races.

17.6 Winners or non-winners of a stated sum means a winner or non-winner of a single race of that value to the winner.

17.7 Owners and trainers must claim allowances and penalties at the time of entry and are solely responsible if a horse starts with or is disqualified due to the incorrect weight.

17.8 Owners and trainers are solely responsible for their horse's eligibility in races where they enter.

17.9 No entries will be accepted for and no stalls will be allocated to:

- Horses which have started for a claiming price of $5,000 or less and have not finished first, second, third or fourth for a claiming price of at least $5,000 in their 7 starts since staring for $5,000.
- Any maiden six (6) years-old or older.
- Maidens which have started for a maiden claiming price of $5,000 or less and have not finished second, third or fourth for a claiming price of at least $4,500 in their last seven (7) starts since starting for maiden $5,000.

17.10 Any horse (13) thirteen years old or older will be allowed to start after special permission of the Stewards, and provided such horse won a recognized flat race the previous year.

17.11 HCCTR reserves the right to refuse any entry.

17.12 HCCTR will not be responsible for any injury to horses or Racing Participants at any time on any part of the premises.

17.13 Owners and trainers are advised that unless any delinquent accounts with the horsemen's bookkeeper are brought current, their entries will not be accepted and their foal papers will not be released.

17.14 In all West Virginia accredited or preferred races, any horse entered must be accompanied by a West Virginia Certificate of Registration issued by the West Virginia Thoroughbred Breeders' Association.

17.15 The Cornell Collar may not be used at HCCTR at this time.

17.16 No horse will be allowed to jog, trot, cantor or gallop on the main Racetrack or training Racetrack without a saddle.

PART 18 - CONDITION ELIGIBILITY

18.1 The following clauses will apply to any race in the condition book where "Condition Eligibility" is noted in the conditions of the race:

- In allowance/non-claiming type races, horses will be preferred by their available conditions beginning with stakes winners through their allowance conditions, down through maiden, then maiden claiming (e.g. NW3 horses preferred over NW2 horses in NW3 allowance races, provided that horse won an allowance and maiden special weight).

- In NW2 allowance races, preference is given to horses that have broken their maiden for $25,000 and upward.

- Horses winning any West Virginia Accredited race shall not have it count against them for purposes of eligibility in any non-maiden unrestricted race except selected NW2 allowance races.

PART 19 - PREFERENCE & PREFERENCE DATE SYSTEM

19.1 Winners are preferred in all winners races.

19.2 Winners of three (3) or more races are preferred in all open claiming races.

19.3 Under the Preference Date System at Charles Town, a horse will receive either an Entry Date or a Run Date. Preference will be given to the horse with the earliest dates. An Entry Date takes preference over a Running Date of the same day. Horses having identical dates will be chosen by lot.

19.4 Horsemen can establish an Entry Date for their horses by: (a) registering their Foal Papers with the Racing Office, in which case the horse will be given an E-Date corresponding to the date the Foal Papers are turned in; or (b) being denied the opportunity to run in a race previously entered for any reason other than scratching. For

purposes of clause (b) entering in an extra race in the condition book that is not used will not constitute the denial of an opportunity to run.

19.5 Preference dates are good for any type of race or distance.

19.6 Preference dates will not supersede conditions of the races.

19.7 An R-Date is established when a horse drawn into the body of a race runs.

19.8 Horses keeping the same E or R Date for a period of longer than 180 days will lose their preference date and may only reestablish one by entering or running and receiving an E or R Date in accordance with these rules.

19.9 Date only entries will not be accepted.

19.10 Horses on the alternates list will draw into the body of the race in order of preference. Alternates that scratch from the program will retain their previous date provided they did not have an opportunity to run.

19.11 Not more than one horse owned by the same person shall be drawn into any overnight race to the exclusion of a single interest. Second choice same owner will not receive a date unless in the body of the race.

19.12 Horses with established dates, which re-enter but do not get in, will keep the date previously established.

19.13 Horses which have established a Date will lose their preference should their papers be withdrawn from the Racing Office or if they race elsewhere and must reestablish a Preference Date. Should horses papers be withdrawn from the Racing Office for just cause (i.e., tattooing, corrections, changes of ownership or clarifications, etc.) the Racing Secretary may determine the status of the Preference Date established.

19.14 In Today horses receive no consideration.

19.15 Horses which scratch with foal papers on file will receive the next day's entry date, unless they scratch prior to scratch time and had the opportunity to run, then they will lose their date. Any horse that scratches without foal papers on file will lose their date and can only re-establish their date by turning in their foal papers or by re-entering, and then will receive a corresponding E-date. Horses with foal papers on file have preference over those with no preference date.

PART 20 - HORSES SHIPPING IN TO RACE

20.1 All horses crossing state lines in their travel to HCCTR must have a current health certificate to enter West Virginia and the HCCTR grounds.

20.2 All horses must have an In-Slip as per Rule 2.4 above.

PART 21 - MEDICATION RULES

21.1 As per West Virginia Thoroughbred Racing Rule 58.5.1, which may be modified from time to time, no horse participating in a race shall carry in its body any drug, substance, its metabolites or analogs which are foreign to the natural horse except as provided by the regulations:

1) Phenylbutazone and oxyphenylbutazone to be administered in such dosage amount that the test sample shall not contain more than 5 micrograms of the drug substance, its metabolites and analogs per milliliter of blood plasma or more than 165 micrograms of the drug substance, its metabolites and analogs per milliliter of urine.

2) Phenylbutazone and oxyphenylbutazone may be administered after the horse is entered to race, but in no event less than (24) twenty-four hours before post time of the race in which the horse is entered.

21.2 Any graded stakes race at HCCTR will be subject to the medication and testing rules mandated by the America Graded Stakes Committee for graded stakes.

PART 22 - LASIX RULES

22.1 Any horse that is treated with furosemide (lasix) must be treated on HCCTR grounds. All treatments will be not later than four (4) hours prior to post time and will only be administered by a private practicing veterinarian designated by the state veterinarian, or the state veterinarian.

22.2 The fee for lasix treatments will be collected by the horsemen's bookkeeper.

22.3 No trainer may remove a horse from or add a horse to the lasix list without prior approval of the state veterinarian.

PART 23 - SHOE POLICY

23.1 Horses competing at HCCTR and all other Penn National Gaming properties will not be permitted to use toe grabs in excess of four (4) millimeters in height. For outer rim

shoes, the four (4) millimeter measurement begins at the top of the outer rim (e.g., the toe grab may not rise more than four (4) millimeters over the top of the rim).

23.2 The use of bends, jar caulks, stickers or any other traction device on front shoes for racing or training will be prohibited.

23.3 The following is a list of shoes that fit the criteria of permitted shoes: Queens Plate, Queens Plate XT, Outer Rim Shoe, Kings Plate XT, Training Plate, Fast Break, Speed Toe and Bar Shoe.

23.4 Any horse arriving to the paddock to race and found to be wearing illegal shoes will be given the option of scratching or running without front shoes.

PART 24 - SAFETY VESTS

24.1 In response to the West Virginia Racing Commission directive, protective safety vests are now being worn by all persons mounted on a horse at HCCTR.

PART 25 - SAFETY HELMETS

25.1 All people mounted on horseback are required to wear a safety helmet with a secured chin-strap. No exceptions.

PART 26 - DRUG CONTROL

26.1 Without limitation, except as required by state law, HCCTR reserves the right, in its sole and absolute discretion, and without notice or cause, to require a blood and/or urine sample from any horse entered to race at HCCTR for the purpose of having the blood and/or urine sample tested under West Virginia approved protocols for any illegal drug or substance.
